greenhouses.

*Stockbridge School
of
Agriculture
Amherst, Massachusetts*

STOCKBRIDGE ALMA MATER

'Neath the elms of dear old Amherst

Stands our college fair,

Hail to thee our Alma Mater

For our love lies there.

*Working ever, falter never,
Onward to our goal,*

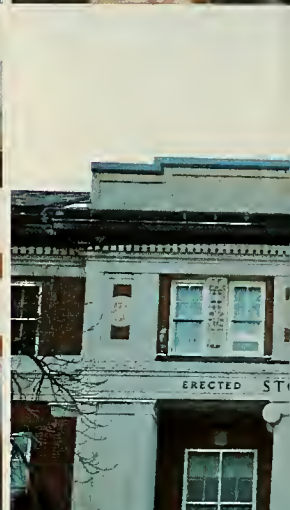

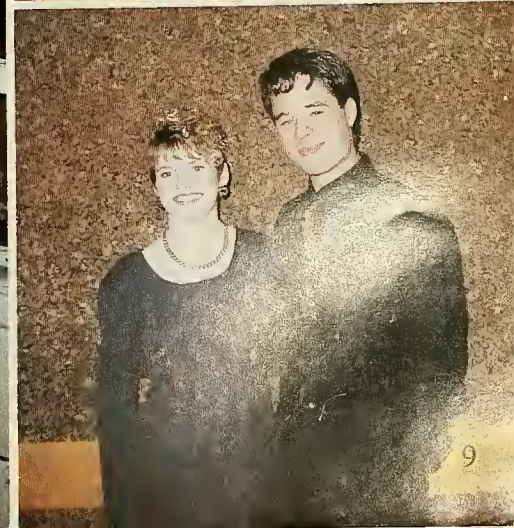

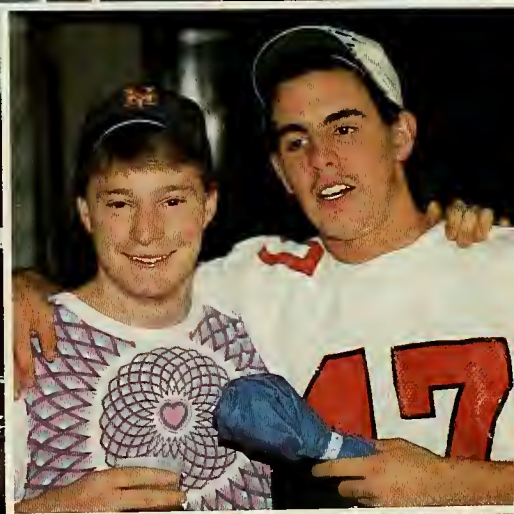

*Give you best to dear
Old Stockbridge,
Body, heart, and soul.*

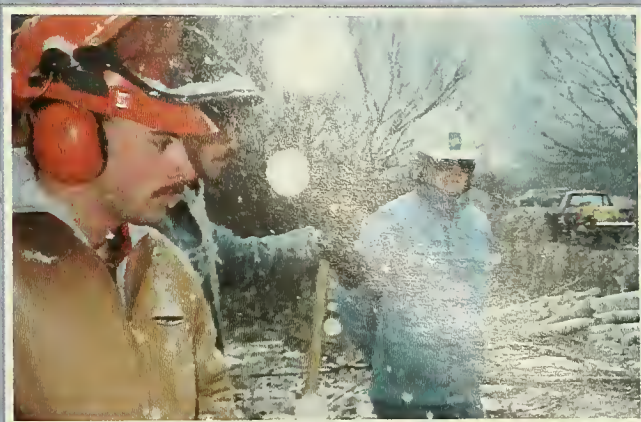

*Tho' the hours are quickly passing
And we soon must part,*

*Thy great halls will not be lonely
They contain our hearts.*

*In the future thought will wander
Back, and we will see*

*Scenes we knew that
dear Old Stockbridge
Always dear they'll be.*

**THE CLASS OF 1993 WOULD LIKE TO
THANK DAVID BAGGETT FOR HIS
OUTSTANDING SERVICE TO THE
STOCKBRIDGE SCHOOL OF
AGRICULTURE**

MESSAGE FROM THE DIRECTOR

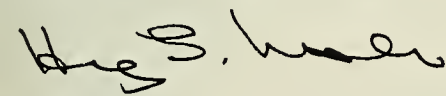

HARRY L. MOSHER

free at last. Free at last. I know that Dr. Martin Luther King Jr. wasn't thinking of Stockbridge graduates when he gave his famous speech, but I know it's applicable. It's like getting out of the Army or the Navy, you just can't believe it. It takes some time to just let it sink in that studying, quizzes, exams, and papers are all over. Now it's time to go to work. But if you like my son he called home after he had been working for a few months and said, "Dad, you know that school business was really easy compared to work. I put in about 60 hours this week and I'm studying to be mad to learn more about IPM." And so it goes. It seems like we frequently complain just to complain, not taking the time to be grateful for all the opportunities and good things that come our way.

enough preaching. You did it. You finished what you set out to do. You reached this goal and you should realize how proud your teachers are of your accomplishments. We see tons of students come and go yet each class has some special memories and gets a special place in our hearts. The biggest rewards we get are having you come back at a later date or even writing a letter letting us know what you are doing and how you are progressing. I don't know if you can imagine what it is like to have a former student walk into your office some years later in a suit and a tie, announce that he or she now has their own successful business, is married and has a couple of children. As a teacher you cannot help smiling and having a real sense of satisfaction that perhaps you have contributed in some small manner to that success.

is a wonderful world out there. Challenges there will be to be sure, but it would be a dull world without them. You have the right stuff-go out and use it.

Best of wishes to all for continued success in your careers.

Harry L. Mosher

THE CLASS OF 1993 WOULD LIKE TO EXTEND OUR SPECIAL THANKS TO ELIZABETH WIERNASZ FOR HER HARD WORK AND DEDICATION TO THE STOCKBRIDGE SCHOOL OF AGRICULTURE AND ITS STUDENTS.

ALPHA TAU GAMMA

Alpha Tau Gamma Fraternity is the only two-year fraternity founded by and exclusively for Stockbridge School of Agriculture Students. We are proud that we have been the closest tie between the two-year and the four-year students at the University. The brothers of ATG have made long strides in the past years. With our membership of nearly thirty brothers, we have done fairly well in competition with the larger houses on campus.

Socially, the "Green and Gold" has shown itself to be a true social fraternity with our frequent parties and exchanges with other fraternities and sororities.

ATG prides itself on our strong brotherhood, alumni support and our programs.

Left: Jay Webster, Jeff Heimlich, and Josh Mephail cleaning up after a party.

Above: Paul Weiss utilizing the computers in the new computer room.

Right: Dan Mayer fueling up chainsaws as Gregg Brooks looks on.

Below: Arbor club member Gregg Brooks high above the ground, pruning a tree.

ARBOR CLUB

OFFICERS

President: Daniel K. Mayer

Treasurer: Kyle Wells

This years main Arbor Club event was the trip to the Statue of Liberty.

Above: Jim Lacefield carrying more than enough pole saws.

TURF CLUB

OFFICERS

President: Louis Bettencourt

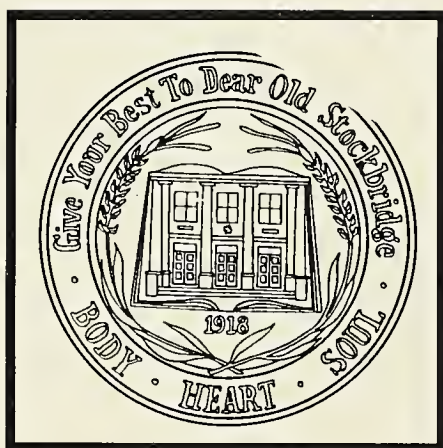

Vice President: Robert Reichert

Below left: Kyle Wells waiting for the ferry.

In May of 1991 TCI published an article on the importance of volunteerism in the arbor industry. New plantings, preventive maintenance and safety prunings are important issues in the realm of volunteerism. This was demonstrated last November when 24 arboriculture students from the University of Massachusetts at Amherst headed to New York to work with the National Park Service. The students volunteered their services to prune London Planetrees (*Platanus Acerifolia*) around the Statue of Liberty. Many of these trees had deadwood directly over walkways and picnic tables which could have put tourists at risk. It was through the cooperative efforts of the universitys Stockbridge School of Agriculture, ATG (the universities agricultural fraternity), the UMASS Arbor Club, and the National Park Service that this project took place. NAA Class II prunings were performed on 47 trees.

Bob Irish, a park management major at the university, organized the trip as he worked with the Park Service on Liberty Island for his internship during the summer of 1992.

This trip gave the students the opportunity to put away their company T-shirts and create a team ready to work for the good of the U.S. Park Service.

The students were allowed to tour the Statue of Liberty after closing, food needs were supplied for the day and brush was removed by the Park Service.

The trip pointed out the need for professional arborists in the community, and the island was made safer with the removal of dangerous deadwood.

Most important, tourists will have a safer and more beautiful place to visit.

This article was submitted by Romi Lacefield a freshman arbor student to Tree Care Industry the arbor industrys leading trade publication. And appeared in the March 1993 issue.

Equine Trip to Florida

Below: Equine members pose for the camera inside the magic kingdom at Walt Disney World.

Right: A close up shot of Carol Noll outside the train station.

Right: Cindy Reis waiting for the train back to Massachusetts.

Right: Becky Townes, Melanie Massey and Karin Tamms wait for the train.

FROM THE EDITOR-MARK MUNIZ

I'd just like to thank Lou Bettencourt, Scott Murphy, Karen Wyman, Jen Ward, Margaret Arsenault, and Elizabeth Wiernasz for the help that they gave me, I couldn't have done this yearbook without their help.
